Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularized in the 1960s.

Conclusion

This Project "Urban Eatery" is the official submission of our FullStack Development Course. With the help of this project we are able to learn various thing like React, React Router, Node and good refinement in previous knowledge of HTML, CSS, JS & Bootstrap.

In this Project we added various user friendly features that can improve User Website Interaction. We have also make a well documentation of our code so that It will be easy for other to understand if they get stuck.

We have invested our lot time on this project yet, numerous changes and additional features are to be added and we will work on them and complete until second review.
